To whom it may concern

Public Institution Training and Consulting Centre of Association of Local Authorities in Lithuania (TCC ALAL) during 2014-2015 implemented the project “Strengthening capacities of national partners in budgeting for children” funded by UNICEF (Turkmenistan). This project aimed at promotion of new approaches to budgeting for children, including strategic planning, result-based budgeting, MTEF, development of state/budget programs. The main project goal was to expand the list of social services for children and their families and improve their quality as it was stipulated by UNDAF draft for 2016-2020.

This project was implemented by TCC ALAL experts Saulius Nefas (Lithuania) and Alexander Kovalevskiy (Russia). At the 1st stage the experts developed the training program and provided a training on strategic planning and result-based budgeting for the members of Parliament (Mejlisi), Ministry of Finance, line ministries, UNICEF staff.

At the 2nd stage the experts selected the trainers, conducted training of trainers and then coordinated and supervised the development of training modules on child-oriented strategic planning, child-oriented budgeting based on RBB, improving social services’ delivery to children and their families etc.

TCC ALAL is grateful to Mr. Nefas and Mr. Kovalevskiy for their work that fits the best standards

Director
Saulius Dagys
